6) No Bounce Doubles: Week 6

Working on = Point Play Skills

In this simple doubles game, the players may not let the ball bounce after the serve. This means that will need to get to the net ASAP.

If any ball (other than the serve) bounces on the ground, that team loses the point.

Besides closing tight to the net, the players will learn that hitting low (not hard) is very effective.

Variation: The pro can allow the serve and **one** additional shot to hit the ground.
